Our goal is to understand the needs of each of our students and create programs and services that allow all students to achieve at high levels - both academically and socially.

## Opportunities for Parental Involvement

This section provides information about opportunities for parents to become involved with school activities.
Parents are encouraged to attend school activities and events to support their students as they get a better look at the many different facets of Orangeview life. Our Parent, Teacher, Student Association (PTSA) is looking for parents to partner with the school for increased success of our students. Many of our programs such as Band, Choir, Athletics, ASB are looking for parents to help both inside and outside of the classroom. The most effective method for parents to be involved in the academic development of their student is to regular meet with their child and talk about both their agenda planner and any notes they have taken in class. All students have an agenda planner in which they are expected to record what they are learning in their classes and the assignments they need to complete. Also, all students use the same note taking format (Cornell Notes) and this can been easily reviewed to understand the key concepts of many classes.

## III. School Facilities

## School Facility Conditions and Improvements

This section provides information about the condition of the school's grounds, buildings, and restrooms, and a description of any planned or recently completed facility improvements.
Orangeview Junior High School opened in 1958. The 20.6 acre site included 33 regular classrooms plus a number of portable classrooms. There are 14 labs which are designed for specific programs (i.e. computer labs, science lab, choral music room, etc.) The site also includes a library, a cafeteria, a gym, and a variety of sports fields. A large portion of the buildings on site were modernized in 1994 with State School Building funding. The exterior of all buildings will be painted with a new color scheme during the summer of 2007. This will include extensive repairs and prep work to address the wear and tear on many buildings for almost 50 years. There are plans to add climate control for the small number of rooms not completed through the 1994 modernization.

Maintenance and repair: Site and district maintenance staff ensure that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service. Emergency repairs are given the highest priority.

Cleaning process and schedule: The district has adopted cleaning standards for all schools. The administration works daily with the custodial staff to develop cleaning schedules to ensure a clean and safe school. All classrooms and restrooms are cleaned daily and deep cleaning, waxing of floors, and painting takes place during times when students are not in class. Students, parents, and staff are encouraged to report any objectionable conditions via a uniform complaint procedure.

## IX. Accountability

## Academic Performance Index

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. API scores range from 200 to 1,000 , with a statewide target of 800 . Detailed information about the API can be found at the CDE Web site at http://www.cde.ca.gov/ta/ac/ap/.

## API Ranks - Three-Year Comparison

This table displays the school's statewide and similar schools API ranks. The statewide API rank ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest 10 percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest 10 percent of all schools in the state. The similar schools API rank reflects how a school compares to 100 statistically matched "similar schools." A similar schools rank of 1 means that the school's academic performance is comparable to the lowest performing 10 schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of the 100 similar schools.

## State Award and Intervention Programs

This section will contain information about the school's participation in various state intervention and award programs only to the extent these programs were funded for the period addressed by this report.
Orangeview Junior High School does not participate in any state intervention or award programs.

## Adequate Yearly Progress

The federal NCLB Act requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- Participation rate on the state's standards-based assessments in English-language arts (ELA) and mathematics
- Percent proficient on the state's standards-based assessments in ELA and mathematics
- API as an additional indicator
- Graduation rate (for secondary schools)

Detailed information about AYP, including participation rates and percent proficient results by student group, can be found at the CDE Web site at http://www.cde.ca.gov/ta/ac/ay/.

## AYP Overall and by Criteria

This table displays an indication of whether the school and the district made AYP overall and whether the school and the district met each of the AYP criteria.

| AYP Criteria | School | District |
| :--- | :---: | :---: |
| Overall | Yes | Yes |
| Participation Rate - English-Language Arts | Yes | Yes |
| Participation Rate - Mathematics | Yes | Yes |
| Percent Proficient - English-Language Arts | Yes | Yes |
| Percent Proficient - Mathematics | Yes | Yes |

## Federal Intervention Program

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (English-language arts or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. ## School Instruction and Leadership

This section provides information about the structure of the school's instructional program and the experience of the school's leadership team.
The counseling and administrative staff work closely with both the 8 feeder elementary schools and our own teaching staff to ensure that both 7th and 8th grade students are placed in the appropriate courses. In addition to our grade level courses, we offer accelerated courses including Algebra for 7th grade, Geometry for 8th and our honors program in English, history and science. We also offer multiple support classes in reading, mathematics and general academic support in Learning Skills. All courses have a pacing guide that indicates the concepts which are taught and in what order. This guide also indicates the dates of each unit of study and when the benchmark exam assessing master is administered. All courses taught by more than one instructor have common assessments where student learning can be compared in an ongoing fashion from September until the STAR exams are given. Core academic courses have common conference periods in which teachers regularly meet to review data generated from the common benchmark assessments. A Coordinated Instructional Plan was developed by the academic leadership team (Student Achievement Team) that includes expectations regarding pacing guides and protocols for analyzing student data to inform instructional practice.

## Professional Development

This section provides information about the program for training the school's teachers and other professional staff. Teachers participate in a variety of District in-services as well as professional development workshops and conferences to enhance their knowledge and instructional skills. The Beginning Teacher Support and Assessment (BTSA) program, district workshops, and professional conferences are opportunities for professional development. The District continues to train teachers in strategies to deliver a differentiated curriculum with depth and complexity. Teachers learn to utilize student assessment results in order to target instruction to better meet the individual needs of students. Classified staff members also have opportunities to participate in trainings designed to enhance their effectiveness with students. All district staff members are supported in their efforts to be considered highly qualified under NCLB.
